**AMENDMENT
AND
RESPONSE TO RESTRICTION REQUIREMENT UNDER 35 USC 121**

This is in response to a restriction requirement of September 6, 2005 wherein the Examiner imposed an election of species requirement.

Please amend the above-identified application as follows:

Amendments to the Specification begin on page 2 of this paper.

Amendments to the Claims are reflected in the listing of claims which begin on page 4 of this paper.

Remarks begin on page 9 of this paper.

ARL 03-22

Remarks/Arguments:

The specification has been amended to eliminate a minor typographical error. Claims 8 has been amended by deleting the specifically mentioned halides and chlorides referred to therein and in place reciting that the salt is selected from a group comprising of an alkali or an alkali earth metal salt. Claim 30 has been added which depends from Claim 8 and specifies that the salt is calcium chloride.

In response to the election of species requirement, and in view of the claim amendments herein, Applicant elects sodium chloride as the alkali earth metal salt specie for examination purposes. Claims 1-11 are readable on this specie. This election is made without traverse.
